

MEETING NOTICE

Thursday, July 27, 2006
4:30 to 6:00 p.m.
Cedar Valley Bible Church, Vestibule
3636 Cottage Grove Ave. SE
Cedar Rapids, Iowa

Those attending will have one last opportunity to provide comment and will see the following:

- The proposed bridge will have one through lane in each direction and one center turn lane to accommodate left turning traffic turning at Cottage Grove Parkway and Kenilworth Court.
- The project will substantially follow the present road alignment.
- The road will be closed during construction.
- Approach roadway with curb and gutter, storm sewer, and provisions for a sidewalk/trail.
- The parking lot for the Sac and Fox Trail on Cottage Grove Parkway has been eliminated.

Some private utilities will be relocated this year. They are taking the opportunity ahead of our project to upgrade their facilities and accommodate our construction. The first gas main relocation should begin around July 31, 2006 and will last roughly three weeks. The second gas main relocation on the west side of East Post Road will likely begin in early fall. Some trees in the public right-of-way may be removed with the utility company work. They will attempt to minimize tree removals by limiting open cutting and using directional drilling technology.

For additional information about the project, please visit the project web site at www.eastpostbridge.com.

If you have any questions regarding the project or the open house, you can contact the design team by e-mail (rbang@shoemaker-haaland.com), or call Bob Bang, Project Manager, at 286-8888.
